

Because of our commitment to excellence and integrity, we use Owens Corning, a company named one of 2018's World's Most Ethical Companies. This global corporation manufactures and markets a vast array of roofing products. The most common upgrades are from the traditional 3-tab [Supreme](#)® shingles to the [Oakridge](#)® or [Duration](#)® lines of shingles. Both upgrade series are laminated shingles, giving your roof excellent performance while looking great too!

### Similarities

Both the Oakridge® and Duration® shingles boast:

- Limited lifetime warranty – [StreakGuard](#)® Algae Protection – Increase your curb appeal with the 10 year limited warranty against algae.
- TruDefinition® Color Platform – This Owens Corning® trademark is designed to capture the dramatic shades and vibrant hues that showcase the aesthetic appeal of your home. The dramatic and tantalizing colors enhance the natural contrasts present in your house's surroundings.

### Differences

*Here are a few differences that may sway your choice:*

- Wind Resistance – Strong winds can cause shingles to blow off your roof, leading to leaks and interior home damage. Owens Corning certifies their shingles through independent testing. The Oakridge® series meets 110 mph wind resistance standards with a standard 4 nail application, but the Duration® series can withstand winds of 130 mph when using 6 nails, as we do, per Owens Corning.
- [SureNail Technology](#)® – This technology is the most important difference between a good shingle and a great shingle. Patented by Owens Corning, SureNail® is a unique woven-fabric strip embedded in the nailing area. It also provides a more durable gripping zone, creating a triple layer of reinforcement.
- **Roof It Right Workmanship Warranty** - With the Oakridge® series there is a 5 year warranty and with the Duration® series it is a 10 year warranty.

*Paired with the [Total Protection Roofing System](#), both of these lines of shingles provide superior performance and enhanced aesthetics to make your home your favorite place to be and to increase it's overall value.*
